Composer - Audio branding

Presentation

I'm a composer and producer based in Paris, France. I work with brands around the world on soundtracks, audio branding, sound design and original compositions.

I work with directors, TV channels and brands in their use of music as a powerful emotional marker. Recently I have collaborated with Netflix, Universal Production Music, Panasonic, France Télévisions and the BBC. I also regularly collaborate with international publishers in the UK and France.

I work with a network of excellent musicians and can carry out projects on any scale: from working with a soloist to a full orchestra.
